

Fire on the Mountain

I SAW GOD DO IT!

Abide in Christ Dental Evangelism Outreach in the Andes

When our team drove up to the village of Alao we saw fires burning on the mountain side. It brought back to mind the fires of persecution that blazed across the Andes when the Quichua people first responded to the Gospel back in the 1950 and 60's. Fierce persecutions paved the way for the second and third generation believers. Even today, there are still pockets of persecution against new mission startups. I was recently asked to encourage a group of new believers being persecuted for their new found faith in Christ. Please continue to pray for new Abide in Christ mission projects and mission churches.

There is no greater joy than preaching the Good News where it has never been presented before.

October 28 - November 5, 2016, Abide in Christ dental-evangelism team presented the Gospel of Jesus Christ in mountain villages where the Gospel has never been shared.

Alejandro Guacho made several trips to a mountain village God had placed on his heart. He visited leaders in the community and prepared the way for the evangelism team.

Please pray for our dental team as it prepares to return to Ecuador March 24 – April 2, 2017, to minister in Alao.
